

RSAP Planning Practitioner Workshop

Session F. Technical and Policy Assistance: Shaping BCDC's Program

Led By: Jackie Perrin-Martinez

This session will provide an opportunity to explore and discuss:

1. How can BCDC **provide resources and support to local jurisdictions** to implement the RSAP?
2. What resources and/or services **would be most useful and beneficial**?
3. How have you used and **engaged with technical assistance already**?

What's next after the guidelines are adopted?

RSAP Mapping Platform

Regional approach

Guidelines per SB 272

Draft Plan Elements

Planning Process

Existing Conditions

Vulnerability Assessment

Adaptation Pathways

Land Use and Policy Plan

Implementation and Funding Plan

Project List

Local planning and project implementation

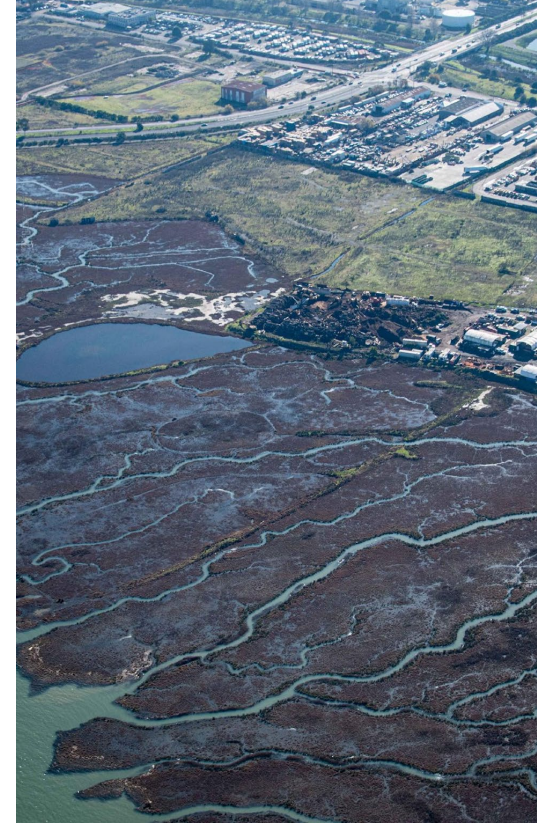

GUIDELINES BY DEC 2024

SUBREGIONAL SHORELINE ADAPTATION PLANS BY JAN 2034

BCDC Technical and Policy Assistance Program

- Bringing on consultants fall 2024 to help identify what BCDC's role will be in **supporting local jurisdictions implementation of the guidelines and standards**. (Hired ARUP to work with us!)
- We'll be developing a work plan to **strategize how to best use BCDC's staff capacity** to support the region.
- Ongoing conversations with regional agencies on how to create more **comprehensive regional technical assistance program**.
- BCDC technical and policy assistance support would **begin in early 2025**.

Some *potential ideas* for types of assistance...

Web Portal

Making information available online

- Access information
- Download GIS data
- Online technical assistance request form
- Online submittal of plans

Materials

Developing templates and /or resource guides

- "How-to" guides
- Worksheets
- Templates
- Example policy language (e.g. General Plans)

Trainings / Workshop

Providing trainings or webinars for different RSAP elements

- Hosting/co-hosting webinars on specific topics (adaptation pathways, finance strategies, etc.)
- Providing trainings for local staff on adaptation concepts

Consultations/ Help Desk

Being able to have one-on-one conversations with BCDC staff

- Providing office hours for questions on guidelines and standards
- Assisting local jurisdictions, such as helping identify funding, conducting equitable engagement, etc.

Convening

Supporting convening and/or facilitation of multi-jurisdictional efforts

- Supporting planning or co-leading a local workshop

Less "hands on"

More "hands-on"

What aspects of technical and/or policy assistance are you most interested in?

- Please **share local examples** of how you've used or engaged in technical assistance to date – what's worked well or what has not?
- What kinds of technical and policy assistance would be **most beneficial to you?**
- What kinds of technical and policy assistance would be **least helpful?**
